About the lecturers Matthias Jacob and Rüdiger Grabosch

Matthias Jacob and Rüdiger Grabosch have been training English speaking Bioresonance therapists since 2011. They both completed their training as licensed Naturopaths in Germany in 2005, and have been working in their own clinic for 15 years.

Both therapists have extensive knowledge and experience in different therapy methods, including Bioresonance, Acupuncture, Homoeopathy, Oxygen-Therapies and Flower Essences Therapy, with Bioresonance Therapy as their main therapy method. Since 2021, they have devoted themselves completely to research and teaching in the field of Bioresonance therapy and naturopathy. Both Matthias and Rüdiger put great emphasis on the practical aspect of training; particularly on learning how to achieve accurate test results by means of bio-energetic test methods, and then using the findings to create a coherent and effective individual therapy plan for the patient.

Cooperation with Regumed, Thera Wellness and the Bioresonance Practitioners Association

We co-operate with the Bioresonance Practitioners Association (BPA), professional body for Bioresonance Therapy in Great Britain, as well as with Regumed, Germany and Thera Wellness, manufacturers of the BICOM bioresonance device and Thera wellness device. We are grateful to our co-operation partners for their ongoing support. All seminars will be open for therapists using the Bicom Optima, Thera wellness device and Bicom 2000.

Practical Workshop on Human Medicine with the BICOM Optima bioresonance device and THERA Wellness device

Basic therapeutic steps explained and demonstrated with practical exercises, including basic therapy and follow-up therapy, using tensor and kinesiology as test methods and using test- and therapy ampoules

11. September 2026 (1 day) – In-person seminar in London / Kingston, no video option £ 290 GBP *

Prerequisite:

This training is designed for holistic health practitioners, medical doctors, dentists, veterinarians and other therapists, as well as students and trainees who are in vocational training in order to practice one of these professions.

Seminar content:

The 1 day workshop will help you deepen your understanding of the principles and mode of operation of Bioresonance as well as the indications for using this form of therapy. We will work with the Bicom / THERA device in practice and an introduction to Tensor and Kinesiology testing, both in theory and practice, is also part of the workshop. You will get a deeper understanding about the fundamental difference between working with patients' own frequency patterns, as opposed to substances' own frequency patterns. A step-by-step guideline on how to be successful with Bicom and THERA Bioresonance therapy as a new beginner will complement this with many practical demonstrations.
