**About the lecturers Matthias Jacob and Rüdiger Grabosch**

Matthias Jacob and Rüdiger Grabosch have been training English speaking Bioresonance therapists since 2011. They both completed their training as licensed naturopaths in Germany in 2005 and have been working in their own clinic since then. Both therapists have trained extensively in different therapy methods, including Bioresonance, Acupuncture, Homeopathy, Oxygen-Therapies and Flower Essences Therapy, with Bioresonance Therapy as their main therapy method. Their training in Bioresonance Therapy included intense training offered by Regumed, Germany, plus personal training from Sissi Karz and other teachers in the field of Bioresonance. Both Matthias and Rüdiger put great emphasis on the practical aspect of training; particularly on learning how to achieve accurate test results by means of bio-energetic test methods, and then using the findings to create logical and effective therapies.

**Cooperation with the Bioresonance Practitioners Association and with the Turner Clinic**

We co-operate with the Bioresonance Practitioners Association (BPA), professional body for Bioresonance Therapy in Great Britain. All seminars will be open for therapists using both the Bicom Optima and Bicom 2000, as well as older devices. The local organizer of our seminars in Ireland is the Turner Clinic, 4 Old Dublin Rd, Stillorgan, Dublin, A94 Y6To. We are grateful to all co-operation partners for their ongoing support. Our seminars in Ireland are currently suspended due to the world crisis and travel restrictions.

## Seminar Programme

### Practical Workshop Human Medicine (Beginners' Seminar)

29<sup>nd</sup> + 30<sup>st</sup> May 2021 (2 days), live video seminar

### Introduction to Bioresonance Therapy with the Bicom device (Beginners' Seminar)

28<sup>st</sup> May 2021 (1/2 day), live video seminar

**Prerequisite:** This training is designed for holistic health practitioners, medical doctors, dentists, veterinarians and other therapists, as well as students and trainees who are in vocational training in order to practice one of these professions.

This workshop is ideal for therapists who have already done the Introductory Seminar with us. However, also new beginners without any previous knowledge can join this workshop. For them, we will offer an extra session on the 21<sup>st</sup> of May for ½ day, to help them better understand the basic knowledge. This extra session is available for an additional fee of € 95, only for participants who also join this 2-days practical workshop.

**Seminar content:** The workshop will help you deepen your understanding of the principles and mode of operation of Bioresonance as well as the indications for using this form of therapy. We will work with the Bicom device in practice and training in Tensor and Kinesiology testing, both in theory and practice, is also part of the workshop. You will get a deeper understanding about the fundamental difference between working with patients' own frequency patterns, as opposed to substances' own frequency patterns. A step-by-step guideline on how to be successful with Bicom Bioresonance therapy as a new beginner will complement this highly practical workshop.

### Seminar on Intestine, Healthy Flora / Dysbiosis, Leaky Gut, Fungus, Parasites and related subjects

5<sup>th</sup> – 6<sup>th</sup> June 2021 (1 ½ days), live video seminar

**Prerequisite:** Participation in introductory seminar or similar knowledge.

**Subjects taught include:** Physiological functions of the intestine \* The importance of a healthy intestinal flora for the human immune system \* "Death is found in the intestines" (Paracelsus) – In other words: Health is only possible when the intestines are healthy \* The role of diet and lifestyle \* The root of leaky gut syndrome and therapy options \* Diagnosis and treatment of mycosis \* Diagnosis and treatment of parasites \* Detoxification therapies via the intestine \* Many practical exercises and demonstrations.

### Seminar on the Human Immune System, Bacteria, Viruses, Lyme disease and intracellular pathogens

11<sup>th</sup> – 13<sup>th</sup> June 2021 (2 ½ days), live video seminar.

**Prerequisite:** Participation in introductory seminar and one more seminar, or similar knowledge.

**Subjects taught include:** Understanding the Yang state in the human regulatory system, also called hyperergia \* Auto-immune disease as an allergy of the human body towards its own tissue and its treatment \* Understanding the human immune system and support strategies to enable it to better deal with different stressors \* Bacteria \* Viruses \* Lyme and intracellular pathogens \* Many practical exercises and demonstrations.
